OVER A SCORE

Taken From the Ruins of the
Hartford Hotel.

THE ENGINEER AND HIS ASSISTANT ARRAIGNED IN COURT.

Charged With Manslaughter—Both Plead
Not Guilty and the Cases Are Adjourned.
Investigation Shows That the Building
Was Poorly Built of Inferior Material.
Injured Doing Well.

HARTFORD, Conn., Feb. 21.—Twenty-two
dead bodies have been taken from the ruins
of the Park Central hotel, and ten wounded
people are at the hospital. Among the dead
found Tuesday was S. B. Iloway, a drum-
mer for the A. Erchenbrecher Store Com-
pany, of Cincinnati.

Alex. Thayer, the engineer, who was ar-
rested Monday charged with manslaughter,
was in court Tuesday morning. At the time
of the opening of court Amos Risley, as-
sistant engineer, had not been found. He was
in charge of the boiler at the time of bank-
ing the fire at midnight. Soon after the
opening of court, Risley was brought in and
the two men on a charge of manslaughter
pleaded not guilty, and their cases were ad-
journed for one week. Bail has not been ob-
tained. The men assert they are in no way
responsible for the horror. Thayer was ar-
rested five months ago, charged with at-
tempting to shoot a man. The case is now
before the superior court.

Investigation into the disaster seems to
show that the building was very poorly con-
structed, and of a very weak character.
Several of the sub-contractors who assisted
in building the hotel in 1873 testify to the in-
sufficient strength of the foundation and
inferior quality of brick and mortar used.

The streets on both sides of the ruins are
crowded, but special policemen keep the peo-
ple from interfering with the work.
No bodies were found beyond those al-
ready reported until about 10 o'clock a. m.
when one was discovered which from its lo-
cation close by the safe is undoubtedly Night
Clock Perry. A great mass of debris is yet
to be overhauled.

At the hospital to-day the ten patients
taken from the ruins are doing as well as
could be expected, and no serious results are
expected with any of them.

LATER.—There are no developments at the
ruins since the recovery of Perry's body.
The work of removing the debris is now pro-
ceeding rapidly. The safe has been removed
to the store room at the old city hall. Facts
continue to come to light tending to lessen
the probable number in the building at the
time of the explosion. Public excitement
has greatly subsided. The only body now
in the morgue is that of Mr. Iloway, of Cin-
cinnati.

GOOD PROSPECTS FOR A WAR

Between the White and Black Miners at
Bradford Mines, Alabama.

BIRMINGHAM, Ala., Feb. 21.—A race war
has broken out at Bradford mines. The
trouble grew out of a fight between a white
man named Jim Cochrane and the colored
miners, in which Cochrane used up several
of them pretty badly with scale weights.
The colored miners were very indignant at
the treatment of their fellows, and swore
vengeance against Cochrane and all the
white miners. The colored miners are about
fifty to one white at these mines. They
sent Cochrane notices to leave under penalty
of death. He defied them.

Monday night a mob about fifty strong
went to his house near the mines to find
him, but he had received warning and fled
with his wife and children. The mob, how-
ever, broke open the door and made a
wreck of his household goods, firing about
fifty shots about the house, shattering all
the doors and windows. They left a noosed rope
hanging on his door knob, on which was a
card written: "To be used to hang Jim
Cochrane when he comes back here." Coch-
rane has organized a white posse, and they
are reported as going to the mines. A bloody
collision is feared, as all parties are terribly
excited. County officers have gone out to
endeavor to quell the disturbance, which
they will do if they get there in time.

THE RESULT OF A DRUNK.

Two Men Fall Into a Tannery Vat and
are Seriously Burned.

SIDNEY, O., Feb. 21.—Late Monday night
Jesse Rolin and John Scully were found in a
vat used for tanning hides. The vat, which is
eight feet deep, contained two feet of strong
lime water. The men were in a most de-
plorable condition, the strong slush having
burned them.

A ladder was put down, and Scully was
able to get out, but assistance was necessary
to pull Rolin out. The men were taken into
the tannery. When their clothes were re-
moved large patches of skin came with them.
Rolin suffered excruciatingly, and begged to
die. Scully was not so severely burned. The
men were drunk, and in the darkness struck
the vat. Rolin never met Scully before, who
claims Akron as his home.

They Need Not Wear Swallow-Tails.

WASHINGTON, Feb. 21.—Chairman Brit-
ton, of the inaugural committee, said in re-
gard to the full dress requirement on the
inaugural ball tickets, that it was an erroneous
impression to suppose that the committee
desired or requested swallow-tail coats. They
wished to prevent people from coming to the
ball without any care as to the propriety of
their dress. A Prince Albert, or any coat
that a gentleman would wear at an evening
entertainment, would be considered proper.

Veteran Dies From a Bullet Wound.

QUINCY, Miss., Feb. 21.—John B. Bass
died Tuesday, aged sixty-one, from the effect
of a rifle bullet wound in the leg, received in
the battle of Pen Ridge, Ark., during the
civil war. Mr. Bass served as postmaster
here from 1867 until 1886.

Grist Mill Burned.

BALTIMORE, Feb. 21.—George E. Coxson's
grist mill in the Twelfth district of Balti-
more county, was burned Tuesday. Loss
\$10,000. The mill was built seventy-five
years ago.

THE PRIZE RING.

Two Men Knocked-Out in Pennsylvania.
Sporting News.

BALTIMORE, Feb. 21.—A prize fight took
place between 3 and 4 o'clock this morning
on a Pennsylvania farm near the Maryland
line for a purse of \$100 contributed by Balti-
more club men.

The contestants were Billy White, of New
York city, and Con Tobin, of Albany. Both
are heavy weights. In the first round Tobin
broke his left forearm and the knuckles of
his right hand were split. He could not go
on and the fight and purse were given to
White. White gave Tobin \$50.

Billy then volunteered to continue the
fight if the spectators could get some one to
stand up to him. "Big Jim," a farm hand,
said he could knock White out and stripped
for the fight. At the end of the sixth round
Jim was sleeping. He got \$25 for his puni-
ishment.

On the Pacific Coast.

SAN FRANCISCO, Feb. 21.—Paddy Duffy,
champion welter-weight of the United States,
matched against Tom Meadows for a finish
fight before the California Athletic club, ar-
rived here Tuesday.

He will go into training at once.

Great interest is being taken in the Glover-
Choyinski battle, which is to take place Tues-
day night in the California club rooms.
Both men are in the trim and a scientific
fight is anticipated.

Choyinski will then make his debut as a
professional. He has been champion min-
ner heavy-weight of the east for some time.
Frank Glover fought Joe McAuliffe forty-
nine rounds, and the winner will probably
challenge McAuliffe.

Betting is even on the Mitchell-Sailor
Brown fight.

Ended in a General Fight.

LONDON, Feb. 21.—A glove fight for £100
a side took place between two well known
pugilists, Hayes and Pritchard, Tuesday.
Hayes sustained a broken nose and a frac-
tured jaw and finally succumbed.

At this point his friends broke into the
ring and a general fight ensued in which sev-
eral persons were seriously beaten.

Fought to a Draw.

EAU CLAIRE, Wis., Feb. 21.—"Black
Frank," of St. Paul, and Paddy Harrington,
of West Superior, fought fifteen rounds to a
draw here Tuesday night for \$250 a side and
receipts.

Frank led in nearly every round, and
seemed to have the best of the fight when
the referee declared it a draw.

CLOTHES FOR A STATUE.

Mercury's Wings on His Herk Not Con-
sidered Sufficient in New York.

NEW YORK, Feb. 21.—A marble reproduc-
tion of Mercury has caused trouble at the
German hospital, in the American Institute
building. It was the custom of Mercury to
wear wings on his heels, and otherwise not
to trouble himself about clothes. One of the
finest and most valuable statues of Mercury
is that of the sculptor, Robert Tohmert.
He loaned it to the fair and placed it in a
commanding position.

An old man came in, took one look at it,
another at a group of young ladies, and then
made a bolt for the station house. Manager
De Frece received an intimation that as soon
as Anthony Comstock returns he will be
made to remove the statue. The manager
seemed to comprehend, and a small garment
was contributed.

Awful Crime Due to Drink.

ASHLAND, Wis., Feb. 21.—One of the most
atrocious murders and suicides that has been
reported for some time, occurred at Upson,
in this county.

A laborer named Joseph Brogan killed his
wife and two children, aged five and seven
years respectively, and then committed sui-
cide, with a razor at 7:30 this morning.
Brogan drank heavily and had a heated
quarrel with his wife this morning. She
protested because he spent all of his earnings
for whisky.

Fast Skating.

SPRINGFIELD, Mass., Feb. 21.—Johnston,
the Norwegian, who is to race with Donaghue
at Newburgh, N. Y., on Thursday, won the
five-mile race on the canal at Holyoke, Tues-
day evening, making three miles—nine laps
to a mile—in ten minutes three seconds; time
of five miles not announced. E. W. Wright,
of this city, was second, and Blakeley, of
Hartford, a professional, third. There were
six in the race. About three thousand peo-
ple were present.

Fanny Will Marry Again.

CHICAGO, Feb. 21.—The Tribune says:
"There is a well defused rumor in theatrical
circles that Miss Fanny Davenport, and her
leading man, Melbourne McDowell, are to be
married in the near future. The legal ob-
stacles which have stood in the way of the
marriage have been removed, and Mr. Mor-
ton, of the Columbia, when spoken to on the
subject, said that he should not be surprised
to hear of their marriage at any time."

Different Stories From the Flatheads.

HELENA, Mont., Feb. 21.—The latest re-
ports of trouble on the Flathead Indian re-
servation are conflicting. At Missoula it is
said that the two men, Clifford and Cum-
mingsham, have been killed. The Indians
have been troublesome since last March,
when two Indians were hanged. Missoula
people look for serious trouble. At Havalli
it is said that the stage has arrived, that
Clifford and Cummingsham are safe.

A Tariff Letter.

CHICAGO, Feb. 21.—The American Tariff
Reform conference began its session here
Tuesday. President Cleveland wrote a let-
ter which makes at some length positive de-
clarations of his views on the tariff question
and its future in American politics. The
letter was written to John Z. White, cor-
responding secretary of the American Tariff
Reform league, in reply to an invitation to
take part in the convention.

Swindled His Alleged Father.

MONTREAL, Feb. 21.—An elegantly dressed
swindler, who arrived at Iberville from Cal-
ifornia a few days ago, has died after swin-
dling a wealthy farmer named Dumas out of
\$40,000 by claiming to be Dumas' son, who
mysteriously disappeared forty years ago.
The son was only six years old when he dis-
appeared and was supposed to have been
kidnaped.

MALVERSATIONS

The Russian Empire Honey-
combed With Corruption.

THE OFFICIALS ALARMED AT THE CAZAR'S DETERMINATION

To Secure a Purer Administration, and in
Consequence They Pray for War to Hide
Their Crimes—France Still Without a
Cabinet—Another Sentence for O'Brien.
Other Foreign News.

LONDON, Feb. 21.—It is stated that the re-
port of the diminishing product of the oil
wells on the Caspian sea is a mere stock job-
bing rumor and that with improved appar-
atus and increasing experience the amount
of oil stored and refined will be limited only
by its price in the market, as the owners of
the most important wells have combined to
regulate the production.

The opposition to the pipe line between the
Caspian sea and Batoum, on the Black sea,
has not yet been overcome, and all the rep-
resentatives of the projectors to the govern-
ment have been hitherto of no avail. It is
an open secret that several prominent offi-
cials demand such enormous sums for their
influence in obtaining the requisite conces-
sion that the oil men have refused to accede
to their terms.

Russia is honeycombed with corruption
and the officials, alarmed by the recent de-
termination of the czar to secure a purer ad-
ministration of affairs for the future, are
praying for a war to inspire their royal mas-
ter with a sense of his dependence upon them
and draw attention from their malversa-
tions. To this effect every petty bribe upon
the outskirts of the empire is magnified and
the recent details of the aggressions of the
amer's troops in Russian Turkestan and the
massacres perpetrated by that ruler must be
taken as an instance of this exaggeration
by parties whose endeavor it is to bring
about hostilities in the interest of them-
selves and their superiors at St. Petersburg.

The czar and a few conservative states-
men are averse to war. The assaults on
Russian credit by the machinations of Bis-
marck have not been without their effect,
and the loan obtained from French bankers
was but a drop in the bucket compared with
Russia's needs. The czar's belief that with
peace and an honest administration the re-
sources of the country can be immensely de-
veloped, and its credit made equal to that
of any nation in the world, seems confirmed
by the improvement of agricultural affairs
in the south of Russia. The area planted in
grain there has increased greatly during the
last two years and the crops have been un-
precedentedly large.

This has been greatly owing to the over-
coming of the prejudice of the peasantry
against using improved machinery. The
number of reapers, binders, ploughs and
other implements of the latest pattern im-
ported from the United States into Odessa is
large. The landed proprietors are em-
barrassed by their use to till larger areas of
land and secure their products with a celerity
and certainty before unknown, and which
will, of course have an important influence
on the price of American grain.

Troubles of Forming a Ministry.

PARIS, Feb. 21.—Tuesday President Car-
not offered the premiership to M. Tirard,
only to meet with another refusal. He then
sent M. Tirard to summon M. Meline, whom
he urged to make another offer under fresh
conditions. M. Meline steadily declined to
undertake the task.

The difficulty of the position may be real-
ized from the fact that an obscure politician
named Prevot was afraid to risk entering M.
Meline's proposed ministry. Later, Presi-
dent Carnot summoned Senator Magnin, a
former minister, and a well-accredited re-
porter says that the president strongly in-
clines towards a cabinet formed mainly of
senators, conceiving that such a ministry
would have a better prospect of securing
general support than a government com-
posed of the more pronounced members of
the chamber; but late this evening nothing
had been settled.

There is no basis for the rumor regarding
an extra parliamentary cabinet, which would
be unconstitutional. Deputy Delattre has
withdrawn his motion in favor of the forma-
tion of a ministry outside of parliament.

At a meeting of the Radical Left several
deputies expressed themselves in favor of a
"concentration cabinet," having a special
mandate to conduct elections, and compris-
ing a minister of the interior acceptable to
all the Republican groups.

Mr. O'Brien Receives Another Sentence.

DUBLIN, Feb. 21.—When the case of Mr.
William O'Brien was resumed at Tralee
Tuesday Mr. O'Brien refused to allow Mr.
Healy, his counsel, to apologize for the lan-
guage the latter had used to Col. Turner
during the progress of the case Monday. Mr.
O'Brien also declined to make any further
defense against the charges brought against
him under the crimes act. The magistrate
thereupon sentenced Mr. O'Brien to six
months' imprisonment without hard labor.
This sentence with his present term will
make ten months' imprisonment for Mr.
O'Brien.

King Milan Will Not Be Crowned.

BELGRADE, Feb. 21.—It is officially de-
nied that King Milan intends to be crowned
in June. There is a rumor that during a fly-
ing visit to Nisch, at a consular reception,
the king intimated pretty plainly an inten-
tion to abdicate. He is reported to have
said: "Let me tell you that I am the symbol
of the past of Serbia. Its future, nay, its
very present, belongs to my son." With
these words he pushed Prince Alexander
into the circle of ministers and consuls and
turned away.

Reception to Sir R. D. Morier.

ST. PETERSBURG, Feb. 21.—The czar, the
czarina, a large number of attaches of the
imperial court, several ministers and many
diplomats were present at the reception given
Tuesday night in honor of Sir R. D. Morier,
the British ambassador.

constitution will break down. The members
of his family are very anxious.

Piercing the Clouds.

PARIS, Feb. 21.—The Eiffel tower has
reached an altitude of 935 feet and will be
completed within a fortnight.

Foreign Notes.

The Prince of Wales visited Mr. Gladstone
at Cannes, Sunday, and spent an hour in
conversation with him.

It is rumored that the sultan of Morocco
has granted the request of the German gov-
ernment for a portion of the coast, near the
American frontier, upon which to found a
naval station.

The Rothschilds will, in the course of a
week, form a limited liability company, to
work the great ruby mines of Burmah.

A Catholic university will shortly be
founded at Freiburg, Switzerland, to which
the sum of 1,000,000 francs has already been
subscribed.

Carl Rosenberg, in a speech at Elinburg,
promised his colleagues that he would pub-
lish the records of the round table confer-
ence, in reply to the challenge made by Mr.
Chamberlain, in his recent speech at Glas-
gow.

The Foster Lloyd professes to have secret
knowledge of the source whence Gen. Ros-
senger derives his election funds. It says
that Pan-Slavists staked their hopes on Ros-
senger, and the political successes he has
achieved is to no small extent due to the
support given to his cause by Russia.

OPENING OFFICIAL MAIL.

Letters to United States Officers Tampered
With at Samoa.

SAN FRANCISCO, Feb. 21.—Ex-United
States Consul to Samoa Greenbaum is quoted
by the Examiner Tuesday as saying, with
reference to mail matter reaching Capt.
Leary when at the Samoan islands: "It is
nothing new to me. When I was in Samoa
I was informed by an employee of the Ger-
man Trading company that they had a regu-
lar system of opening letters by steaming
them over a boiler, and by this process open-
ing the seal and mutilage. It was then easy
to take out the contents, copy all corres-
pondence therein and replace them in a
proper manner without being noticeable.
On this account I used silk thread and rib-
bons as fastenings, sealing them together
securely to protect my mail, and notified the
government at Washington."

DOCTORS USELESS.

Terrible and Fatal Disease Now Raging in
Webster County, Kentucky.

MARION, Ky., Feb. 21.—A terrible disease
made its appearance in Webster county a
few weeks ago, and it is now raging in a
more virulent form than ever. It seems a
waste of time and money to summon medi-
cal assistance, as death is sure to follow in
every case. The malady is confined to a
strip of territory bordering on a small stream
called Crab Orchard creek.

In one family of seven only the father
escaped. To date there have been over fifty
deaths. The doctors are inclined to the
opinion that the disease is cerebro-spinal
meningitis of the congestive unguant type.
The patient is taken with sharp pains in the
spine, which soon reaches the brain, followed
by violent convulsions and death results.

Florida's Sub-Tropical Exposition.

JACKSONVILLE, Fla., Feb. 21.—The second
season of the Florida sub-tropical exposition
has been formally opened. Business was
generally suspended and the city properly
decorated with garlands. The Tenth Regi-
ment, New York, band, which has been en-
gaged for the season, is here. President
John Q. Burbridge delivered the opening ad-
dress at the exposition, and was followed by
Director General Webb. All the civic and
military organizations took part in the
parade. Visitors from all parts of Florida
were present.

Nitro-Glycerine Explosion.

BELLEVILLE, Pa., Feb. 21.—One hundred
pounds of nitro-glycerine exploded at the
quarries of the Bellefonte Furnace company
Tuesday, doing great damage to surround-
ing property. The workmen were fortun-
ately under cover at the time, and no one
was killed, though several were slightly in-
jured. The damage done was very heavy.
The explosion was caused by a piece of rock
falling on the box of glycerine.

Sympathy for the Pope.

QUEREC, Feb. 21.—A sensation was created
in the provincial legislature Monday night
by a resolution offered by one of the ultra-
Montane leaders, expressing sympathy for
the pope, and adding that his former tem-
poral power should be restored. As soon as
the government members heard of the resolu-
tion they had a stormy interview with the
ultra-Montane members, the result being the
withdrawal of the resolution.

Georgetown's College Centennial.

WASHINGTON, Feb. 21.—The centennial
celebration of Georgetown college will com-
mence to-day, and all preparations for the
important event are now complete. Cardinal
Gibbons arrived here at 2:30 yesterday after-
noon, and was escorted to the college by the
cadet corps, the faculty and a large delega-
tion of clergy from all over the country,
upwards of five hundred of whom are in at-

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

THURSDAY EVE., FEB. 21, 1889.

The news from the West Virginia Legislature is very discouraging. A political crank on the Democratic side has very likely succeeded in defeating Senator Kenna.

There seems to be an impression abroad that Colonel Walter Evans will receive something nice at the hands of the incoming administration. He is now named as the probable successor of Controller Durham.

The information comes from Washington City that the Direct Tax bill will hardly pass at the present session of Congress. This is sad news for Forsaker and his gang who have about bankrupted the State Treasury of Ohio. They will not get that \$1,000,000 and more for a while yet.

As PRESIDENT the people pay Grover Cleveland \$50,000 per annum, and when his term expires, a New York law firm will pay him a like sum per annum for his services. There is a man living up in Ohio, who is called an ex-President, and it is not probable that there is a firm of lawyers in America who would pay him for his services \$5,000 per annum.—Louisville Times.

The only State office to be filled at the election next August is that of Treasurer. The Prohibitionists are already in the field with a candidate, and it will not be the fault of that alleged independent paper, the Louisville Commercial, if the Republicans fail to present a nominee for the place. The indications point to an interesting contest for an off year.

Chairman Alford, of the Democratic State Committee, says he will issue within a few days a call for a meeting of the Central Committee to fix the time and place for holding a convention to nominate a candidate for the office. The convention will probably be held in May, either in Louisville or in Lexington. Judge Stephen G. Sharp, the present Treasurer, is the only announced candidate.

There is one Republican Senator who seems to be ashamed of the action of his colleagues in "hauling up" the recent appointments of President Cleveland. The Senator referred to is Mr. Hale, of Maine. If the Senate fails to go into executive session to consider some of the late nominations it will not be his fault. The action of the Senate in this matter shows what a miserable set of partisans they are.

In explaining his appeal to his colleagues for fair play, "Mr. Hale stated that between the election of Mr. Cleveland and his inauguration, President Arthur made 620 nominations, 600 of which were confirmed; that Mr. Hayes made over 600 nominations after the election of his successor, and no objections were made to confirmation."

Senator Hale has lately given other proof that he doesn't let partisan feelings entirely overshadow his sense of justice. He took occasion in a speech a few days since to compliment the present administration of the Navy Department very highly. If his colleagues were more like him the people would have a better opinion of the Republican Senate.

Religious Miscellany.

Rev. Dr. Bonar was given \$20,000 at his recent jubilee.

Bishop Spalding has been presented a \$1,000 vestment and a \$400 mitre.

The foreign mission collections this year are the largest ever known. Over \$12,000,000 will be realized.

Montreal Cathedral collects one cent a month from each Catholic for its building—last month it amounted to \$1,053.67.

There were eighty-one confessions in the revival at the Fifteenth and Jefferson Street Christian Church, Louisville.

The twenty-two Woman's Missionary Societies in the United States raised last year \$1,038,255, and supported 751 missionaries.

The eighth annual convention of the Young Men's Christian Associations of Kentucky will be held in Georgetown, February 28th to March 3rd, beginning Thursday afternoon at 3 o'clock and closing Sunday night. The association at Georgetown requests pastors of churches where no association exists to appoint one or more young men as delegates.

Tobacco Growers.

The convention of Mason County tobacco growers adjourned to meet Saturday afternoon March 2nd, at 2 o'clock, and not next Saturday as stated in yesterday's issue.

Ho! for the Inauguration.

The C. and O. will carry passengers from here to the inauguration of General Harrison at \$12.50 for the round trip. Tickets will be on sale February 26th to March 3rd, good returning until March 9.

TATE'S SURETIES.

They Gain the First Point in the Suit By the Commonwealth.

The trial of the case of the Commonwealth against Jas. W. Tate, late State Treasurer, and the sureties on his official bond for the term of 1882-83, was finished in the court at Frankfort on the 19th. The case involved about \$50,000. A special says: "The Commonwealth's testimony was concluded with that of Professor Ben C. Weaver, of Louisville, one of the experts who made an exhaustive investigation of the Treasurer's books and papers. The defense, without the introduction of a witness, rested the case here, when Judge Montfort instructed the jury to find for the defendants, which they did without leaving the jury box. Much of the evidence which the Commonwealth was prepared to introduce was excluded by the court, to which, together with many other points of law, the Commonwealth excepted, in order to bring the case for final adjudication before the Court of Appeals. Unfortunately, the law required a jury to decide the technical questions raised by the defense, upon which even the ablest attorneys differ, and hence a verdict in favor of the sureties is not in the least regarded as foreshadowing the result before the Appellate Court."

Stock, Field and Farm.

This country consumes about 1,250,000 barrels of flour every week.

W. T. Woodward sold 64 horses at Lexington Monday for \$25,110.

Richard Young bought the bay gelding Muggins, by Baywood, dam by Mambrino Champion, at the Lexington thoroughbred sales last week.

The Assessor's returns show that there is an aggregate of 4,419,800 pounds of tobacco in Bourbon; 4,129,850 in Grant, and 3,334,700 in Boone.

Mr. Charles L. Talbott, of Colville, Ky., has sold his crop of 15,000 pounds of tobacco, to be delivered this month in winter order, at 10 cents, all around, to Best & Co.

Mose Daulton bought the black stallion Lee Woolfolk at the sale of thoroughbreds at Lexington recently, for \$435. Lee Woolfolk is by Donovan's Diamond, dam by St. Lawrence.

HELENA.

Miss Katie Daugherty is in Maysville. Mrs. Fannie Rummans is convalescing. We said in last week's news that our public school had closed, not at the Station, but at Millwood.

S. D. Clarke, agent for the Merchant's Roll Paper, Printer and Cutter Co., was in Lexington last week.

George Gray is in Cincinnati this week.

Mrs. Thomas Best visited in Maysburg last week.

Charles Cook, the wagon maker, and Dan Roe, the miller, went to Rectorville, Lewis County, Monday.

The family of Seldon Bramble has been very much afflicted recently. The eldest daughter died a few days ago after a short illness, and others of the family are in a precarious condition.

Wm. H. Cord, who has been visiting his parents, Mr. and Mrs. H. T. Cord, near here during the past week, returned Monday last to his home in Owenion, to resume his work as bookkeeper for the F. and A. Cox Co. His wife and little son, Norman, will spend a few weeks among friends in this community.

SHANNON.

Dr. L. V. Browning and W. Joshua Rees have associated for the purchase and pricing of the selected seed. They have already booked several crops at \$10. In stripping order, styles & Pictor and Henry Thompson are circulating among the planters, and the old thing begins to show a little life. Even at \$10 a bushel of money will be put into circulation, debts paid off and times made easy.

Ellas Collins and Wood Richardson, two of Fleming's "get-up-and-get" farmers, visited Ashwood Stock Farm on February 19th, looking at the little colony of standard-bred colts and fillies, and inspecting Major Nichols, the Almont speed-producing sire, with a view to a future purchase.

The tidings from Rev. G. M. Clarke, late of this circuit, M. E. Church, are not reassuring. It was hardly conceivable that the climate of Scotland, or the fearful issues of an oceanic voyage, would prove a tonic for him, whose vigor and endurance were so small, yet he underlook it and was hopeful. Brave and gifted, should he fall he would be a great loss to his church and family.

Among the key-notes gathered from the gossiping wires and flashed into our sanctum from an alert observer are the probable union at an early day of a solid widower, of Fern Leaf, and the belle of Baker's Branch, and a solid and sober bachelor of Sardis and a bright damsel of Champaign County, Illinois.

SARDIS.

At the dramatic and musical entertainment Friday and Saturday nights, February 15th and 16th, the demand for seats, each evening, largely exceeded the seating capacity, four hundred, of the Christian Church. The receipts were over \$10. The audiences were lively and enthusiastic. The music on the latter nights, (Ray's Cornet Band), and on the inner (clando and voice), was cheering and inspiring.

The play, "The Yankee Detective," was pretty mounted, has an absorbing plot, love, courtship and marriage, and displays admirably the winning talents of the dashing star, the mystic maneuvers of the cunning detective. Professor Chandler had drilled his students so thoroughly that each one was competent to assume the role which was necessary to the proper production of the fascinating drama. The audience was completely captivated by the emotional scene where the miser, after long years of marital infidelity, meets again her long lost brother.

Having neither programme nor key-notes, and not being familiar with the dramatic personae, it were too invidious to particularize, where all did so well.

A SHOE FACTORY.

Experienced Men Ready to Come Here and Put Money in the Enterprise.

A Capital of \$15,000 or \$20,000 All That is Needed to Start With.

Mr. J. F. South, of Cincinnati, was in town yesterday for a short time consulting some of the merchants in regard to starting a shoe factory.

Mr. South was engaged for years in the business of manufacturing boots and shoes and is fully experienced in all the details of the work. At present he is traveling for a factory located at Bethel, O. Many of the shoes sold by the merchants of this city are made by the factory he represents.

Mr. South says he will invest money in a factory here in Maysville. He has always considered this a good point for such an industry. His son and son-in-law he says will take stock in the enterprise. They are all experienced in the business and are willing to come here and work in a factory if one is started.

Mr. South talked with a number of citizens who expressed the opinion that the capital required could be raised without much trouble. Mr. W. W. Lynch authorizes us to say he will subscribe \$500 to the stock and is willing to subscribe more if the move meets with the encouragement it deserves.

There are one or two vacant buildings in town that could soon be fitted up, and at very little expense.

If the citizens will appoint a time and place for a public meeting next week and notify Mr. South, he will attend and give any information desired as to the cost of establishing and operating a factory. The matter should be attended to. The opportunity offered should be taken advantage of. With proper effort, Maysville can soon have a shoe factory in full operation.

AN AWFUL CHARGE.

Peter Pepper in Custody, Accused of a Horrible Crime.

Peter Pepper, better known as Peter Pepper, was arrested yesterday afternoon by Marshal Hedlin and Deputy Marshal Stockdale and taken before Judge Coons to answer the charge of incest.

From information obtained, the charge will probably be changed to that of rape. The victim of the unnatural father's brutish passion is his oldest daughter. She is but little past twelve years of age. The details of the case, as obtained by Marshal Hedlin, are too revolting to appear in public print.

The Commonwealth was not ready for trial yesterday afternoon, and Judge Coons committed Pepper to jail in default of \$2,500 bail.

The accused is a man of middle age, strongly built, and has been employed in the cotton mills for some time. His wife died of consumption about a year ago. His home is in "Smoky Hollow." He has five children, his oldest being a son about fourteen years of age. After his father's arrest, this son said that he has known of the crime for some time, but was afraid the accused would kill him if he told it.

Pepper does not deny the awful charge. He seemed rather indifferent over the matter. When informed what his daughter said about the crime, he replied: "I guess it must be so."

FAIR AND RACES.

Cincinnati Tobacco Warehouse Stakes—Fools of 1887, \$200 added; conditions same as Central Hotel stakes.

Fleming County Stakes—For foals of 1887, \$50 added; conditions same as Hechinger stakes.

In addition to the above, the association will give purses of \$400 each to 3:00, 2:35, 2:27 and 2:20 trots and 2:20 pace.

NEAR Butler, Mo., L. E. Mann, formerly Nicholas County, shot his rival in a love affair and then tried to kill himself. Both will recover. His rival's escape from instant death was miraculous. The bullet struck him over the heart, and lodged in a check book that was in his coat pocket.

JOHN DULEY bought the frame cottage on the north-west corner of Limestone and Boone streets that was sold yesterday afternoon by Geo. W. Sulser, assignee of L. Hill. Price \$1,450. The handsome residence at south-west corner of Limestone and Fourth was bought by Wilson Hill for \$3,165.

The marriage of Mr. J. Fletcher Grimes, of this city, and Miss Dickie Sharpe, of Sharpsburg, was solemnized yesterday afternoon at 1 o'clock at the home of Mr. and Mrs. Wm. Barker, of that place. Rev. Mr. Alexander, of the Baptist Church, officiating. The attendants were Mr. Wm. E. Power, of this city, and Miss Barker, of Sharpsburg.

The bride is a niece of Mr. and Mrs. Barker, and has been one of the belles of Sharpsburg.

The groom has made a host of warm friends during his residence here, who join in hearty congratulations to the happy couple.

The bridal party arrived here last evening and were tendered a warm reception at the home of the groom's parents, Mr. and Mrs. Wm. E. Grimes, of Third street.

The Railroads.

The C. & O. pay-car arrived Tuesday evening and left yesterday morning for points above on its monthly trip. Paymaster Patterson, of Richmond, Va., was in charge.

The annual meeting of the stockholders of the Maysville & Lexington for the election of officers will be held March 19th, '89, at the office of the company in Covington.

Says the Ripley Bee: "Henry Biehn is home from Winchester, Ky., for a two weeks' visit. He reports that the transfer of all the through traffic on the Chesapeake and Ohio to the new river route has seriously diminished the volume of business on the Central Kentucky line, much to the regret of the people over there."

General Freight Agent Charles L. Brown, of the Kentucky Central Road, has issued a circular notifying shippers and connecting lines that on and after Monday next the K. C. will receive and deliver freight, destined to or coming from points on its line, at its depot on Third street, between Rose and Park streets, Cincinnati.

At Covington, C. P. Huntington has transferred to the Covington and Cincinnati Elevated Railroad and Transfer Bridge Company the property he purchased from the firm of Montgomery & Singleton. The price paid was \$150,000. The property is situated on Second street, and runs back to the low-water mark of the Ohio River. Edison's Exhibition at the Paris Exposition

WILL KNOCK THE SOCKS OFF ANYTHING BEFORE ATTEMPTED

In the Way of an Electrical Display Great Claims Made for the Edison Exhibition in the English Courts, Which May Exert Its Influence on the Suits Now Pending in This Country—The Suits Will Be Vigorously Pushed.

New York, Feb. 21.—Thomas A. Edison has been making preparations for the last six months for an exhibition in the Paris exposition universelle, which it is believed will be the most extensive exhibit of the kind ever shown. He has been allotted 8,000 square feet of floor space in the main building, and here he will show models of all his inventions in telegraphy, telephones, electric lighting and the phonograph. The principal feature of the exhibition will be an enormous model of an incandescent lamp, forty-eight feet high, the globe being composed of no less than 20,000 incandescent lamp bulbs.

The effect when the light is flashed will be wonderfully brilliant, illuminating the entire main building. On either side of this exhibit will be the French and American flags worked out in colored incandescent globes. Among other novelties will be a huge dynamo, a series of charts illustrating the growth and development of Mr. Edison's invention, a large allegorical picture, entitled "Menlo Park," the birthplace of the incandescent lamp, and an incandescent bulb illuminating a series of designs showing the principal buildings of the world now lighted by the Edison system. The shipping of the exhibits has already begun.

The Electric Light Patent.

New York, Feb. 21.—It was reported Tuesday that a decision had been handed down in London by the appeal court upholding the electric light patents of Edison and Swan against the Holland and Anglo-American Brush patents, thus reversing the decision of the lower court.

J. S. Hastings, secretary and treasurer of the Electric Light company, said Tuesday that the lower court, through some insufficiency of specifications in preparing the case, decided against the company. The appellate court reversed the decision of Judge Kny in the lower court thus sustaining beyond possibility of appeal the broad fundamental and controlling patent on the incandescent lamp.

The patent in question, Mr. Hastings said, covered what was technically known as a "filament of carbon of high resistance," and which was commonly known as the incandescent lamp, as now used today by every incandescent lighting company in the United States. Mr. Hastings said that the question involved in the matter was one of fact, not law. The effect of the decision would be far-reaching, and as the same evidence would determine the question of fact in this country, its influence would make itself felt in the impending suits in the United States. Mr. Hastings said that in the United States in all the important suits of the company the defendants had interposed pleas even ignoring the merits of the controversy and alleging that the patents of the company in this country had expired by reason of the expiration of patents previously granted in foreign countries. The recent decision of the supreme court of the United States established the fact that the company's foreign patents had not expired, and that the United States patents were therefore in force. The patents having been thus established in the United States, and the question of fact as to priority of invention having been established in England as well as in the other European countries, the company had only to push their suits in this country to an immediate issue. This was to be done with all the energy and ability that money could command.

They Had No Fire Apparatus.

There is no fire apparatus in the place.

Bridge Floor Gives Way.

MONTREAL, Feb. 21.—At Cowansville, Tuesday, the floor of a bridge, which was being repaired, gave way and fell a distance of fifteen feet. A number of workmen were carried down and buried beneath the timbers. J. Timpney received a fatal fracture of the skull and several others were seriously injured.

THE INAUGURAL TRAIN.

It Will Leave Indianapolis at Noon Monday, February 25.—The Route.

Pittsburg, Pa., Feb. 21.—The schedule for President-elect Harrison's train from Indianapolis to Washington has been arranged. It will leave the former place over the Pennsylvania road at noon on Monday, next, and arrive at its destination on Tuesday, the 26th inst., at 2:30 p. m. The train will consist of President Roberts' private car, two Pullman sleepers and a baggage car, and will be run as a section of the Atlantic express. No stops will be made between Indianapolis and Pittsburg except to change locomotives, and after leaving here will go through without further stop to Washington.

The president and his family will occupy President Roberts' special car, which is now being renovated at the Altoona shops of the Pennsylvania railroad. The car has been repainted and refurnished in all the sumptuousness possible with the advanced art of to-day. President Roberts gave personal directions in regard to the refurnishing of the car, and when the work is completed it will, in truth, be a traveling palace.

They Came In Through Canada.

SAN FRANCISCO, Feb. 21.—The suspicions of customs officers here have been aroused by the increase in the numbers of Chinese passengers from Port Townsend, Washington Territory. The steamer Walla Walla, which arrived yesterday, had on board eleven Chinamen, who were held and examined by Surveyor Tinnins. Eight of them swore they were employed by a firm in Port Townsend, though they did not know each other. Most of them confessed that they had entered Victoria, B. C., since the exclusion act was passed, and then had crossed the border to Port Townsend. Officers of vessels on the sound declare that coolies are being constantly smuggled over the border, and when once in this country they can go where they please.

Something May Give Way.

A Pittsburg natural gas expert has made the calculation that each day 600,000,000 cubic feet of natural gas are drawn from the earth for use in that city. This amount weighs over 12,000,000 pounds, of which 8,000,000 pounds are carbon. He is of the opinion that, with the withdrawal of so much material, something will give way. Already since the development of natural gas in western Pennsylvania there have been several "shakes."

CLIMBING.

Once these hills that I have gained Seemed like towering mountains tall; Now in the evening, sunset stained, My weary soul doth find them small.

Before my sight no Rights rise, Mont Blancs stand towering up sublime; But in the sky life's daylight dies, And, is it worth our while to climb?

Lie down, O soul, and be content, Behold the hills do lie, all low, Of level, dull accomplishment; Beyond the eternal stars still glow.

Blanche Roosevelt.

Blanche Roosevelt, one of our famous American girls, is said to be one of the most interesting girls in Europe to talk to. It is doubtful if a celebrity has appeared on the other side during the last ten years whom she has not met. She knows every crowned head in Europe. She has reminiscences of every court. She has been fêted in every capital, and she is the only person living who ever attended a ball at Battenberg palace without the previous formal presentation. She has some literary reputation, but it is not this to which she owes her remarkable position. She has a genius for universal fascination. The person is yet to be heard from who has ever resisted Blanche Roosevelt. Moreover, she has a knack of always knowing the right person. If she wants a thing done, she immediately meets the person that can be of use to her. People talk about her, but forgive her every indiscretion. She doubtless conquered Sardan, and he said: "I will make you; I will write a play with you. She is about 30, and very handsome.—Current Literature.
